Summary

A Frontend development student at Nackademin. Love creating, well organised and tenacious. Previous experience in web marketing, international logistics, customer service and store management. Originally from Tokyo and moved to Stockholm in 2016. After completing all the Swedish courses, I worked in E-commerce marketing for the Japanese market.

Alongside studying Swedish from 2017 to 2020, I made comics about my life in Sweden on Instagram, targeting the Japanese audience. This project [@yukainsweden](#) reached around 20,000 followers at its peak.

Frontend development and comic creation are very similar for me. Both involve visualising ideas by considering the perspectives of users or readers. Both require concentration and patience, and it brings great joy of creating. Skaparglädje is my key word, and I aspire to make such work my livelihood.

Experience

2020- 2022	Marketing Associate / Japanese Market Triwa Stockholm, Sweden Marketing for the Japanese market. Influencer marketing, social media communication, copy writing for digital ads and newsletter communication for subscribers. Content localization, product translation and updating e-commerce website. Inventory control and customer service in Japanese.
2017- 2022	Banquet Server Stadshusrestauranger Stockholm, Sweden Serving the Nobel banquet 2018, 2019 and 2022.
2015- 2016	Export Clerk Kintetsu World Express Tokyo, Japan Receiving shipping orders from clients and arrange the shipments.
